Norflex™ expansion joints give you the best rubber pipe joint solutions for your connections, tailored to desired lengths.

Benefits:

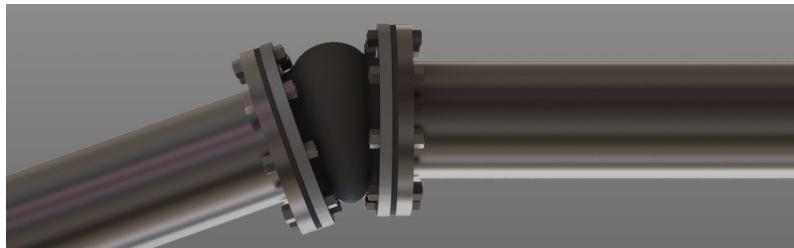

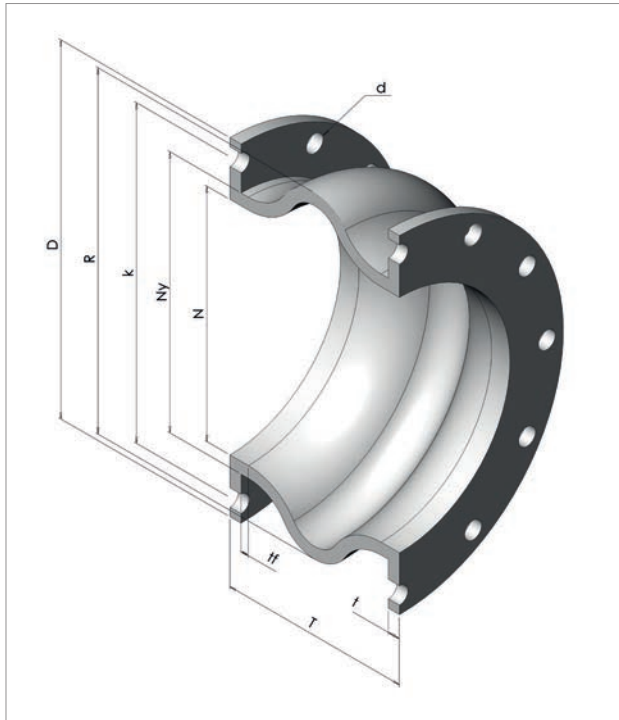

- Tension releasing
- Compensate for misalignment
- Vibration absorbing
- Sound dampening
- Compensate for thermal elongation
- Ensure a tight seal

The table below contains a range of dimensions related to a standard Norflex™ expansion joint. They can be custom built to different lengths or for different purposes, e.g. for handling vacuum or specifically for low or high working pressure. This will obviously cause some discrepancies in the listed values.
